The following is an examiner's statement of reasons for allowance: as pointed out by the Applicants in the appellant argument that the cited prior art (Bowen et al. [6,094,694]) taken alone or in combination fail to teach, in combination with the other claimed limitations, *scanning programming code for a first pair of string delimiters that are used to delimit text strings; determining whether a string within said first pair of string delimiters is a path name to a resource file; and if said string is not a path name to said resource file then flagging said string as a possible hard-coded string; and wherein said text string is not flagged as a possible hard-coded string if said text string is a path name to said resource file* as now recited with this examiner's amendment in the independent claims 1, 9 and 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
